

Journeyman Machinist

The Pittsburgh Post-Gazette is seeking a qualified Machinist with at least 5 years of industrial machinery repair experience to work primarily in Clinton, PA. Journeyman or comparable level desired. The position requires working in a union, multi-shift environment in both production and office settings. Qualified applicants will have proven knowledge and demonstrated ability in the following areas:

- Experience operating lathe, milling machine, surface grinder, and other recognized trade equipment and tools as necessary
- Excellent problem solving, troubleshooting, and mechanical skills
- Ability to work with close tolerances (± 0.0005)
- Ability to lift 50lbs and perform heavy work
- Positive attitude toward change and the ability to adapt and relate to the work environment and the associates
- Ability to meet deadlines, quality standards, and productivity requirements
- Basic use of PC for MS Office, troubleshooting and preventive maintenance programs
- Ability to read blueprints
- Contributing to team effort by accomplishing related results as needed including training other employees in technical skill areas
- Maintaining safe and clean working environment by demonstrating a clear focus on safety as the main priority of the job and by enforcing all plant safety policies and procedures
- Ability to work weekends, overtime, and all shifts

The Company offers an excellent pay and benefits package including medical coverage in addition to paid vacation and pension. Interested applicants should send a resume to:
