

On December 22, 2017, President Trump signed H.R. 1 into law, giving permanent and massive tax cuts to corporations and wealthy Americans. The tax law:

- **raises the deficit** by \$1.9 trillion
- repeals the individual mandate **eliminating health care for 13 million Americans**, including older Americans, who purchase insurance on the health exchanges
- increased the federal deficit, putting pressure on Medicare and Medicaid which provide health insurance for nearly 133 million Americans

In October 2017, the House passed a budget for FY 2018 that would cut Medicaid and radically alter the program. The resolution:

- **cuts nearly \$1 trillion from Medicaid**
- **requires states to enforce onerous work requirements for Medicaid recipients**, effectively causing many individuals, including older Americans, to lose their insurance.
- **jeopardizes nursing home and home care for seniors** and individuals with disabilities. Medicaid pays for 66% of all long-term care services in the United States
- **repeals the health care law, including the Medicaid expansion**, which will force 23 million Americans to lose their health coverage by 2026 and will increase costs for millions more

***Seniors must hold their elected officials accountable  
in November. Don't forget to vote!***

How **Rep. Scott Perry (R-PA)** voted:
